

MOTS-c

Locked peptide information sheet

Short Description

MOTS-c is a mitochondrial-encoded peptide commonly discussed in metabolic signaling, exercise-adaptation, and cellular-energy research. TrueHold lists it as a 20 mg lyophilized premium research formula.

How It Works

MOTS-c is researched as a mitochondrial-derived peptide involved in metabolic regulation discussions. Themes include AMPK-related signaling, exercise-mimetic research, and cellular energy adaptation. It is not a GLP-1 or GIP agonist.

Key Research Themes

- Mitochondrial signaling
- Metabolic regulation research
- Exercise-adaptation discussions
- Cellular energy
- Healthy-aging research themes

Who Commonly Asks About It

- People tracking metabolic health
- Athletes and active members focused on energy
- Members interested in mitochondrial peptides
- Labs studying metabolic signaling compounds

What To Track

- Energy
- Exercise tolerance
- Recovery
- Body-composition notes
- Training consistency

Basic Information

Product	MOTS-c
Also discussed as	Mitochondrial open reading frame of the 12S rRNA type-c
Class	Mitochondrial-encoded signaling peptide
Category	Metabolic signaling peptides
Vial	20 mg lyophilized vial
Form	Dry (lyophilized) vial — not reconstituted product
Shop	https://trueholdwellness.com/ols/products/mots-c-premium-research-formula-20-mg

Fulfillment

- Prep and local delivery: Las Vegas residents only
- Shipping: dry (lyophilized) vials only
- Interest orders are confirmed by phone before payment

Working With The Team

- Share a phone number so the team can call
- Confirm Las Vegas residency for prep and local delivery
- Complete required documentation with the team
- Review protocol details case by case — not in chat

Protocol Note

TrueHold shares locked information sheets for general education only. Protocol details are reviewed by the TrueHold team case by case. The bot does not provide dosing, reconstitution, or administration instructions in chat. For individualized plans, use /schedule to book with the team. Research use only.
